

Roaming Costs

Important Notice: aircraft and maritime charges

Inflight and At-Sea calls/data will cost you!

Inflight rates

Inflight calling/data (where permitted by the airline) is charged at different rates and not included within any bundles. Please take care when using your device and note the rates below:

- To make a call £3.34 per minute
- Receiving a call £2.50 per minute
- Text Message £1.42
- MMS £0.75
- Data £10.00 per MB

Avoid bill surprises! We recommend closing down Apps and turning off all your mobile devices when not in use or setting them to Airplane/flight mode.

At-Sea rates

Maritime calling/data rates, which can apply on cruise ships, ferries, oil rigs & Eurostar also vary. A call on a cruise ship, ferry or oil rig often uses a maritime network that will be registered in a country rather than your location at sea.

This is why a call made on a ferry between Portsmouth and Spain could show on your bill as 'Iceland' or as 'Maritime,' 'AT&T' or 'Satellite,' depending on the country the network is registered in.

Maritime networks can be picked up on land too, especially if you're close to a port. If this happens and you'd rather connect to a local network, please adjust your handsets network preference setting. Please take care when using your device and note the rates below:

- To make a call £4.00 per minute
- Receiving a call £3.00 per minute
- Text Message £1.70
- MMS £0.90
- Data £12.00 per MB

Contact your Account Manager if you have any concerns about using your mobile abroad, or would like to find out about our NEW mobile features that are making business better.
